VIA CERTIFIED MAIL RETURN RECEIPT REQUESTED

Adler Tank Rentals
ATTN: John Stewart, General Manager
2751 Aaron Street
Deer Park, TX 77536

Re: **Leaking Frac Tanks**
U.S. Oil Recovery Federal Superfund Site, Pasadena, Texas

Dear Mr. Stewart:

State District Judge appointed me Receiver over 200 N. Richey and 400 N. Richey, Pasadena, Texas, (collectively, the "Site"). This Site has been proposed for listing on the National Priorities List as a "Superfund Site" by the U.S. Environmental Protection Agency ("EPA"). One of my tasks as Receiver is to assist the U.S. Oil Recovery Site PRP Group (the "PRP Group") in their work to clean up the Site. You have been identified as the owner/lessee of two frac tanks containing waste and located at 400 N. Richey site.

One of the frac tanks is leaking and needs to be addressed as soon as possible. As Receiver I am vested with the authority to control activities on the Site. You do not have my permission to store your equipment at the Site, and I therefore demand that you remove the two frac tanks and their contents from the Site in a manner that is acceptable to EPA. Additionally, the leakage from your tanks affects the property. You have ten (10) days from the date of this letter to arrange for the proper disposition of the tanks and their contents.

If you do not respond within ten (10) days, I may proceed to enforce my legal rights against you. Such rights may include removal of the tanks from the Site, disposal of the tanks and their contents, and recovery of the costs of such action from you.

Regards,

Eva Engelhart

cc: Ed Quinones, U.S. Environmental Protection Agency
